DETAILED ACTION

1. This communication is responsive to Applicant response filed on October 22, 2001.

Status of Claims

2. Of the original claims 1-18, claims 1-18 have been canceled without prejudice or disclaimer in the amendment filed on January 12, 1998, and claims 22-41 have been added in the same amendment. However, since the original claims were 1-18, the added claims 22-41 have been renumbered as 19-38 according to 37 C.F.R. 1.126. In the amendment filed February 16, 2000, claims 19, and 38 have been amended. In the amendment filed August 8, 2000, claim 38 have been canceled without prejudice or disclaimer. Therefore, claims 19-37 are under prosecution in this application.

3. The Examiner acknowledges Applicants' response concerning the request for information and documentation under 37 C.F.R. 1.105, and therefore withdraws the previous office action's request regarding this matter.

The Examiner misinterpreted the MPEP 706.02(c) during a personal office interview with Applicant's representative (Tiep Nguyen) on October 2, 200, which resulted in a withdrawal of the rejection of claims 19-37 under 35 U.S.C. 102(a).

MPEP 706.02(c), states that, " ... If the activity is by an entity other than the inventors or

Art Unit: 2164

assignee, such as sale by another, manufacture by another or disclosure of the invention by applicant to another then both 35 U.S.C. 102(a) and (b) may be applicable. If the evidence only points to knowledge within the year prior to the effective filing date then 35 U.S.C. 102(a) applies. However, no rejection under 35 U.S.C. 102(a) should be made if there is evidence that **Applicant** made the invention and only disclosed it to others within the year prior to the effective filing date. In this particular case, there is no evidence that **Applicant** made the invention, the only evidence is that the same assignee made the invention. Note that this disqualification of 102(a) type art from the same assignee only holds under 103. If the article actually anticipates the claims and can be used under 102, then the rejection can still stand under 102(a) even if they are commonly assigned. Assignee can be taken into account only if the rejection moves to obviousness type (MPEP 706.02(k)). Therefore, the rejection of claims 19-37 under 102(a) as discussed in the previous office action (paper No. 19) is reinstated.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

5. Claims 19-37 are rejected under 35 U.S.C. § 102(a) based upon a public use or sale of the

Art Unit: 2164

invention as discussed in "Trade it Yourself Bank Machines Make a Debut Securities", Los Angeles Times, October 6, 1994.
